

Community Service and Volunteerism Charter

Function: The Tin Whistles are committed to serving the local community. The Community Service and Volunteerism Committee encourage, supports, promotes, and celebrates volunteer service by Tin Whistle members.

- **The Tin Whistles Band of Brothers** - Since 1993 a group of Tin Whistles meet in the early morning once a month to pick up trash on Morganton Road from US 15-501 to NC Route 5. Volunteers are needed for the cleanup and can sign up in advance on the Tin Whistle web site.
- **The Tin Whistles Habitat for Humanity Volunteers** – a group of Tin Whistles regularly work with Habitat for Humanity during home construction or refurbishing projects for homeowner families in Moore County. Volunteers are welcome.
- **The Tin Whistles First Health Volunteers:** a group of Tin Whistles members serve as golf cart transportation providers for patients and family members across the First Health campus, service wheelchairs, and provide discharge assistance.
- Additionally, the committee works to identify other potential volunteer service activities and ad-hoc service opportunities. These opportunities are qualified by the committee and presented to the TW BOG for consideration as they are developed.
